

Studio 96 at EMAC Studios has been an outstanding addition to the FM96 programming line-up. Since 1999 we have proudly invited artists including Sam Roberts, Rise Against, Metric, Seether and Our Lady Peace to perform live to air from EMAC studios.

The EMAC environment immediately impresses and puts the artists' minds at ease to the type of performance we will achieve. The EMAC staff has been great in achieving superior live from the floor mixes for broadcast. The mastered versions of the performances are regularly replayed on FM96. We're very proud of the recordings and our partnership with EMAC.
