

Mr. Rob Nation
EMAC Recording Studios
432 Rectory St.
London, ON
N5W 3W4

I cannot recommend Rob Nation higher in regards to his expertise as an audio professional. I have worked closely with Rob on countless projects over the past 20 years and he has continually exceeded all of my expectations. He is a true, dedicated pro on every level.

We have worked together on hundreds of productions including a variety of broadcast series from a reality based show "Drifters, The Water Wars" (produced for OLN) where we spent a month scrambling through mosquito infested wilderness to a casino/lifestyle series, High Point Casinos of World with Kenny Rogers, where we traveled and worked exhausting long hours in locations from France to Aruba and many points in between.

Rob's work ethic has consistently been impeccable. His positive can-do attitude shines through in everything he does. He is an absolute joy to have on my set. The quality of his work is stellar. If you need a professional audio person for your shoot, look no further than Rob Nation. His experience and perfect track record make him an invaluable member of any production team.

If you would like a personal recommendation for Rob please contact me directly at 352.552-8881.
